

Prochaska & Associates

November 2, 2016

To Whom It May Concern:

On behalf of Prochaska & Associates, I can state that through my relationship working with Meco-Henne Contracting Inc., as the Contractor during the construction phase of the Fremont County Law Enforcement Center project, Sidney, IA, was a positive experience from the beginning of construction through to completion in August of 2015. Their staff's commitment to the project, both in the field and the office contributed to an efficiently run project resulting in the project not only being completed within budget, but also garnering a state-wide award for Excellence in Energy Efficient Design, sponsored jointly by MidAmerican Energy and Black Hills Energy.

Meco-Henne should be considered a very capable member for any owner's team.

Sincerely,

PROCHASKA & ASSOCIATES

William R. Huey III, RA, NCARB
Vice President
